Message:

Dear Lynne and Shaune I would like to thank you both for all your professional and efficient support today. The meeting was excellent and extremely supportive to myself as a patient and carer of a patient. The Chairing of the meeting by Lynne and the engagement and minute taking by Shaune was outstanding and completely engaged. The agenda and terms of reference (TOR) was understandable and gave me complete confidence to communicate with clear understanding of objectives. Thank you both once again and thank you for inviting all the participants to ensure we as patients had the best informative experience. With very kind regards Debbie (separate patient George).
